

Get up to \$750 back on new, energy-efficient windows

Inefficient windows may be causing you to use more energy. Install to save money and keep air indoors, PSE's windows rebate can help.

Only homes with existing single-pane windows qualify for the ENERGY STAR® window incentive. The ENERGY STAR window incentive does not apply to homes with existing double-pane windows.

What you get

You must have existing single-pane, wood or metal-framed windows or patio doors to qualify for this incentive.

If you're eligible for this offer, you receive a rebate of **\$50 per window, up to a \$750 maximum.**

Existing window type	Incentive available	Rebate value
Single-pane* wood or metal-framed windows	ENERGY STAR® windows with a U-factor of .30 or lower	\$50 per window, up to \$750 total

*Single-pane windows: window casing containing one pane of glass separating the inside of the home from the outside of the home.

To be eligible for PSE's windows rebate:

How to qualify

- You must be a current PSE residential electric or PSE natural gas customer.

- You must use PSE electricity or PSE natural gas as the primary source of your home's space heating.
 - You must note the primary heating system and fuel type on the application.
 - Windows must be installed within the conditioned living areas of the home at the time of submission.
- These rebates are only available on new, qualifying equipment.
- Your windows must be installed on or after Jan. 1, 2017.
- These rebates do not apply to new construction, additions that expand your home's square and/or cubic footage, or installations in unheated areas of the home.

Incentives for home with existing single-pane windows

- **ENERGY STAR® windows with U-factor of .30 or lower**

General requirements:

- You must have existing single-pane, wood or metal-framed windows or patio doors to qualify for this incentive.
- The high-efficiency windows or doors must be installed to replace the existing single-pane, wood or metal-framed windows.
- The installed windows or patio doors must meet the requirements listed below:
 - **Prime windows** must have an NFRC rated U-factor of .30 or lower.
 - **Patio doors** must have an NFRC rated U-factor of .35 or lower.
- Window count is determined by the fenestration (opening) of the replaced windows. \$50 per window, eligible up to \$750 maximum.
